ABOUT

I'm a Front end UI/UX Developer with an experience of 4 years. My Mind is a balanced blend of creative and analytical qualities, making for a pretty cool skill set ! I crave order, love all things design, and seek harmony between work/life. I'm always on the lookout for exciting projects to work on.

RESPONSIBILITIES

- Estimating the time span for a project based on client requirements.
- Managing and delivering the solution in a time-bound manner
- Understanding the problem, designing and developing a solution.
- Managing and delivering the solution in a time-bound manner.
- Documents and demonstrates solutions by developing documentation code comments and clear code.
- Assists in system specification design and solution deployment.
- Coordinating with the QA department for issue resolution.
